

RESIDENTIAL ELECTRIC VEHICLE CHARGING REBATES

BRING FAST RELIABLE EV CHARGING HOME

Install a Level 2 EV charger at your home and get up to \$250 back from your local utility to help cover the cost of installation. A Level 2 charger charges your vehicle faster than a standard outlet, making it easier to plug in at home and be ready to go when you need it.

Rebate Details

- Available for residential customers installing a Level 2 (240-volt) EV charger
- Incentives cover 50% of installed cost, up to \$250

How It Works

- Purchase and install a Level 2 charger
- Apply online or request a paper application
- Submit proof of purchase and installation documentation
- Receive your rebate once approved

Incentives are subject to program guidelines and available funding

We're Here to Help

Not sure which charger is right for your home or how to get started? We're here as a trusted, local resource to help make home charging simple and reliable.
